

Rockingham (VA) Criminal Court Records

Records Group Summary

Title	Criminal Court Records
Reference Code	Ccr
Inclusive Dates	1813-1971
Document Creator	Rockingham County Criminal Court
Extent	31 Boxes, Two Bound Volumes
Language	English
Location	Rockingham County Circuit Court

Bio/Historical Note	<p>In the pre-revolutionary era, the substantive criminal law of Virginia greatly resembled the laws of England, so far as they were applicable to their situation. English law was supplemented or amended in the general assembly, but the basic laws, including all serious criminal offenses, were English law. Death was the penalty for many serious crimes in the colony, as in the mother country. The Act of 1796 was a bill that abolished the death penalty for all crimes committed by free persons except murder in the first degree. The bill directed the governor to purchase land within the state for the purpose of building a penitentiary, inaugurating imprisonment as the punishment for all other crimes. The bill also established minimum and maximum sentences for each crime, according to the gravity of the offense. The power to set the sentence was also given to the jury, rather than being a judicial decision. These laws focused predominantly on white men and women; the enslaved population was still disproportionately punished with physical violence or death. In the years after 1796, very little changed about the criminal code. The length of sentences might vary according to the times. Seduction, previously a civil case, became criminalized in 1849 and remained so until 1977. Further, several crimes (arson, rape, attempted rape, burglary, attempted robbery, and kidnapping) have since become capital offenses, authorizing the death penalty as a possible sentence. In most cases, however, the punishment remains imprisonment, as it has since 1796.</p>
----------------------------	--

Scope and Content	<p>The collection contains the Criminal Court Records from Rockingham County. The records included are criminal case records, warrants, appeals, summons, register of convicts, prison records, recognizance, bail bonds, jury records, pardons, and complaints. The criminal case records are cases that were tried in front of a jury. Warrants are separated into two subseries, search warrants and arrest warrants. The appeals series contains the records of appeals by people regarding their original conviction. The records contained within the summons series are witness summons, jury summons, and defendant summons. The original summons records may also contain the judge's verdict for a case, if the criminal case did not go to a jury trial.</p>
--------------------------	---

Arrangement	<p>The records are grouped into series by type of court record. Within each series the folders are organized chronologically, then alphabetically by surname.</p>
Index Terms	<p>Criminal courts—Virginia, Criminal justice history, Criminal law—Virginia—Cases, Criminal records—Virginia</p>

Contents

Series I	Criminal Cases
