IN MADISON COUNTY CIRCUIT COURT CLERK'S OFFICE - June 3rd, 1932.

VIRGINIA IN THE CIRCUIT COURT OF MADISON COUNTY.

The State Commission on Conservation and Development of the State of Virginia - - - - - Petitioner

V.

W.D. Anderson and others and fifty-five thousand (55,000) acres of land, more or less, - - - - - Defendants.

Your Undersigned, who were by an order of your Honor's Court, entered in the above styled proceeding on February 13, 1931, appointed Special Investigators and members of a Board of Appraisal Commissioners, beg leave to report that on February 19, 1931, they and each of them, duly qualified by taking and subscribing the oath prescribed by law; and that subsequently thereto, to-wit: on February 19, 1931, they organized themselves into a Board of Appraisal Commissioners by electing one their number, J.H. Billingsley, as Chairman, and another member, Joseph M. Samuels, as Secretary:

That in obedience to the orders and directions of your Honor's Court they entered upon the performance of the duties imposed upon them as such Special Investigators and as such Board of Appraisal Commissioners, under the provisions of the Public Park Condemnation Law, and having strictly complied with the provisions of that Act in the performance of the duties thus imposed upon them, they respectfully submit this their report of their proceedings and findings to the date hereof, specifically inviting attention at the same time and at the outset to the exceptions to the general statements and findings in the body of this report which are set forth in the concluding paragraphs hereof captioned as follows "EXCEPTIONS TO THE FOREGOING".

Your Undersigned caused a copy of the order of your Honor's Court entered on March 25, 1931, fixing the time and place of the hearings of claims and evidence in support thereof, to be posted at the front door of the Court House of Rappahannock County, and likewise caused a copy of said order to be mailed to each claimant of any right, title, estate or interest in the lands described in the petition, or of incidental damages arising from the proposed condemnation thereof, whose claim was at that time filed with the record in the Clerk's Office, to the address of such claimant as set forth in his answer or claim; such posting and such mailing was all done for a period of more than ten days before the time set in the aforesaid order for the hearings; and, pursuant to the order of your Honor's Court entered herein, and after notice to petitioner, your Undersigned heard the evidence presented by the petitioner and the owners and claimants whose answers or claims had been filed with the record, as to the nature, character, location, extent, ownership, and value of the lands described in the petition, and of the various separate parcels of tracts included therein of diverse ownership, and of any and all right, title, estate or interest therein, and of any incidental damages, owned or claimed by such owners or claimants.

During the progress of the hearings, many persons appeared and presented claims in or to rights, title, estates, or interests in various parcels or tracts of land within the area sought to be condemned, who had not filed answers or claims with respect thereto within the time prescribed by the statute, and asked to be heard and to be permitted to offer evidence in support of such

claims; In every case the petitioner waived its right to object to the presentation of such evidence on the ground that such claims had not been filed within the time prescribed by the statute, and asked that all such claims be permitted to be filed and evidence taken in support thereof, and that the evidence as to such claims be considered by your Undersigned as if said claims had been filed within the time fixed by law for the filing of the claim, and your Undersigned thereupon heard and considered the evidence as to such claims presented by these claimants and the petitioner, and as to the fact or facts of value thereof and of the fee simple estate of the various tracts or parcels of land with reference to which such claims were set up.

Many of the claims could not be heard on the days fixed for the hearing of the same because of inability of parties to properly prepare for the presentation of the evidence; in all such cases, the hearings, and the taking of evidence were regularly adjourned from time to time, and from place to place to suit the convenience of the claimants and petitioner.

After the petitioner and all the owners and claimants who had filed answers or claims or had submitted claims as aforesaid had been thus given an opportunity to be heard and to submit evidence in support of their claims, and had been heard and had submitted their evidence, your Undersigned met and considered the evidence thus submitted at length, and went on all the various tracts or parcels of land of diverse ownership, within the area sought to be condemned, as to which any such claims had been filed, and also went upon all the various tracts or parcels of land of diverse ownership within the area as to which no answers or claims had been filed or submitted with the record, but which, by diligent search and inquiry, and upon evidence furnished by the petitioner and others your Undersigned found to be included within the said area; and viewed the same extensively for the purpose of aiding them in ascertaining and determining the fact or facts of value of such tracts or parcels of land and their identity with the lands described in the various answers or claims filed with the record; or their identity with parcels or tracts of land shown by the petitioner or appearing to the Undersigned, as a result of diligent search and inquiry, to belong to owners who had failed to file answers or claims; or their identity with parcels or tracts of land in or with reference to which infants, insane persons, or persons under legal disability were found or appeared to have any claim or right, title, estate, or interest or of incidental damages.

In addition to the hearings aforesaid held after due notice set out, further hearings were had and further opportunity to be heard and to present evidence was given to the petitioner and to all owners and claimants within the area in strict compliance with the order of this court entered on January 22, 1932, provided for notice by publication of the time and place of such hearings; and at the time and place set out in said notice your Undersigned gave all owners and claimants an opportunity to be heard and to submit evidence in support of their claims and to submit such further and additional evidence as they desired to present as to claims on which they had already been heard, and as to the fact or facts of value thereof and of the fee simple estate of the various tracts or parcels of land with reference to which such claims were set up.

At the hearings above set out the petitioner submitted a map, prepared by engineers, surveyors, and land examiners, purporting to be a correct and accurate map of the entire area described in the petition, and to show each and every parcel or tract of land within the area of diverse ownership, and the boundary lines thereof, including all parcels and tracts of land within the area of known and unknown ownership, or as to which claims of ownership or incidental damages arising out of the proposed condemnation thereof had been filed in the record, each of said tracts or parcels of land being given a separate number as shown on said map by reference to which it is and may be identified in this report and the attached exhibit sheets.

In the course of your Undersigned's personal view and inspection of the lands within the area as above set out, they personally visited each and every tract or parcel of land shown on this map, (except only as hereinafter indicated) and carefully checked from personal observation and view the subdivisions into which it is divided and basing their findings upon such inspection and upon the evidence submitted at the hearings, your Undersigned find and report that the said map is a correct and accurate map of the entire area described in the petition: that said area contains approximately fifty-four thousand nine hundred and sixty-xix (54,966) acres of land and that (with the corrections and amendments made thereon under the direction of your Undersigned, as required by the facts disclosed by the evidence adduced at the hearings and their own inspection and view of the lands within the area) said map correctly discloses all the separate tracts and parcels of diverse ownership within the area sought to be condemned:— and, examined together with the exhibit sheets hereinafter mentioned, it shows the location and boundary lines of each tract or parcel of land in and to or with reference to which claims or answers have been filed with the record in the Clerk's Office, and in and to or with reference to which your Undersigned have been able to discover by diligent search and inquiry that any infant, insane person, or person under legal disability has or is entitled to a real claim, of right, title, estate or interest, and in and to which any other person who has not actually filed a claim, has or may be entitled to a real claim; and correctly discloses also all tracts or parcels of land within the area described by the petition to which your Undersigned have found conflicting or overlapping claims, or in and to which claims of less than the fee simple estate have been filed with the record in the Clerk's Office. The said map is submitted herewith and prayed to be taken, examined and filed as a part of this report and, for purposes of identification, bears the signature of the Secretary of your Board on its lower left hand corner.

Upon a full and thorough consideration of the matters set forth in the petition, and the respective claims or answers filed with the record, and of the evidence adduced and submitted with respect thereto, both by claimants and petitioner, and of the arguments of such counsel as appeared on behalf of the petitioner and the claimants, and of the information and evidence afforded by the aforesaid view of said lands, and of the said tracts and parcels of diverse ownership, contained therein, your Undersigned submit their findings as follows:—

(a) That the fact or facts of value of the fee simple estate in each and every separate parcel or tract of land of diverse ownership within the boundary

lines set out in the petition, regardless of all and any conflicting claims of right, or title, or estate, or interest in or to the premises, are as shown by aforesaid map read together with the exhibit sheets filed herewith setting forth the value of each and every parcel or tract of land shown as aforesaid on the map, the value thus found in each case being the fair market value.

The said separate tracts or parcels of land shown on said map include each and every tract or parcel of land of diverse ownership within the boundary lines set forth in the petition, and specifically, each and every separate tract or parcel of land to or in which any claims of right, title or estate, or interest has been filed with the record in Clerk's Office or set up in the course of the proceedings; or to or in which the Undersigned in the performance of their duties as Special Investigators, and as a Board of Appraisal Commissioners have heretofore found or reported or do herein find or report in said exhibit sheets, read together with said map, that any infant, insane person, or person under legal disability, or any other person who has not filed his claim with the record, has a real and well founded title or claim of right, title or interest; or to or in which it appears from the record or otherwise that any infant, insane person, or person under other legal disability has any title, or claim of right, title, estate or interest.

Said exhibit sheets are prayed to be taken and read as a part of this report, all of said exhibit sheets being paged consecutively from to 111, page one thereof setting forth a summary table of the contents, and bearing the signature of the Secretary of your Board of Appraisal Commissioners, in the lower left hand corner for the purpose of proper identification.

(b) That the amount of incidental damages which will result from the proposed condemnation or use of the lands described in the petition for a public park or park purposes to which any person whose claim is filed with the record in the Clerk's Office is entitled under such claim or to which your Undersigned have found any infants, insane person, or person under legal disability not represented by a guardian ad litem at the date of the filing of this report to be entitled, is the amount of such incidental damages found by the Undersigned and shown in the above described exhibit sheets filed herewith, read together with the aforesaid map.

(c) We further find the fact or facts of value as to all claims of right, title, or estate, or interest in or to the land described in the petition filed in the course of these proceedings by owners or claimants in their own behalf, or filed in behalf of infants, insane persons, or persons under legal disability to be shown by the accompanying map read together with the attached exhibits setting forth our findings as to the value of the fee simple estate in each of the parcels of land shown on said map, the value of such claims being equal in amount to the value placed on the fee simple estate in the respective parcel or parcels to which as shown by said map and exhibits we find that these claims were respectively directed, it being understood, however, that wherever it appears from said map and exhibits that conflicting or overlapping claims, or separate claims to a less estate than the fee simple estate refer to the same tract of land our finding as to such conflicting or separate claims is limited, unless otherwise expressly shown in said exhibit and work sheets filed herewith, to a

finding that the total value of all such claims in each separate parcel equals the value of the fee simple estate in such parcel or tract, as shown in the above mentioned exhibit sheets.

(d) We further find the amount of the respective real claims in the proceeds of the lands described in the petition, to which the respective owners and claimants are entitled, to be the value of the fee simple estate in each parcel or tract of land as disclosed by the said map and the accompanying exhibit sheets to which they have laid claim or to which where no claim has been made, they may hereafter show that they are entitled, it being understood, however, that wherever it appears from said map and exhibits or otherwise that conflicting or overlapping claims, or separate claims to a less estate than the fee simple title refer to the same parcel or parcels or tract or tracts of land, our finding as to such conflicting or separate claims is limited to a finding that the total of all the real claims in the proceeds of the lands described in the petition to which such conflicting or separate claimants are entitled equals the value of the fee simple estate in the respective parcel or parcels or tract or tracts, shown by said map, and accompanying exhibit sheets, with respect to which as shown by said map read together with the attached exhibit sheets, we find that such conflicting or overlapping claims or separate claims to a less estate than the fee simple estate have heretofore been asserted.

Your Undersigned further report that in the course of the proceedings and in the performance of their duties both as Special Investigators and members of a Board of Appraisal Commissioners they made diligent inquiry as to the existence of any land within the area described in the petition, or parcels or tracts of land, or right, or title, or interest, or estate therein, within the boundary line set forth in the petition, and as to the existence of any claim or claims in or to the proceeds of any of the lands sought to be condemned, which are owned or as to which any real claims could be asserted in behalf of any infant, insane person, or person under other legal disability, or to which any person who has failed to appear and answer or file the necessary pleadings to entitle him to be heard at the above mentioned hearings upon the value of the land or estate, or interest sought to be condemned is entitled; and of any property or properties owned by such persons which will be damaged by the taking of the land sought to be condemned and the use of the same for a public park or for public park purposes; and that in the attached exhibit sheets read together with the said map there is set forth such information as your Undersigned have been able to secure as to the location and value of the parcels or tracts of land within the area sought to be condemned, in which such persons own or are entitled to any right, title, estate, or interest, or by reference to which any claim of right, title, or estate, or interest has been set up, or as to which any real claim might be set up in behalf of such persons in the proceeds of the lands sought to be condemned; and that in all cases wherein your Undersigned have been informed or found that any infant, insane person, or person under other legal disability has or appears to have any such claim of right, title, estate or interest in or to the land sought to be condemned or in or to any parcel or tract contained thereon, or to incidental damages, a guardian ad litem has heretofore been appointed by this Court and such guardian ad litem, after accepting

notice, has been given an opportunity to be heard and has been heard as to such claim, and as to the value of the parcel or parcels or tract or tracts of land with relation to which such claim has been or may be asserted.

Your Undersigned further report that they spent a great deal of time in the hearing of the evidence, and the arguments of counsel, and in viewing the various tracts included in the area described in the petition; and likewise spent much time in considering and exchanging view with each other as to the value of said lands and of said damages; the time so consumed aggregating at least 150 days.

In (2) separate envelopes or wrappers your Undersigned submit herewith the written or printed evidence submitted by the petitioner and the respective claimants in the course of the hearings and taken into the possession of the Undersigned, together with transcripts of the stenographic notes of so much of the oral testimony as was reduced to writing for the record, and separate maps of each of the tracts or parcels of diverse ownership as shown on the above mentioned map of the entire area sought to be condemned, which separate maps were submitted by the petitioner as a part of its evidence as to the nature, character and elements of value to be taken into consideration in ascertaining the value of said tracts or parcels of diverse ownership within the area described in the petition, each of such envelopes and packages being suitably identified by the signature of the Secretary of the Board.

Your Undersigned further submit herewith in (1) separate envelopes or wrappers suitably identified by the signature of the Secretary of your Board of Appraisal Commissioners, their "Work Sheets" setting forth in detail their findings as to the nature, character, location and extent of each of the said tract or parcels of land of diverse ownership shown on the above mentioned map, and of the improvements thereon, and of claims of right, title, estate, or interest therein filed with the record in the Clerk's Office, or found by the Undersigned where no such claims have been filed with the record in the Clerk's Office:— the data set forth in said work sheets including the principal elements of value upon which your Undersigned have based their findings as to the fact or facts of value set out in this report read together with the said map and "exhibit sheets" filed herewith.

#### EXCEPTIONS TO THE FOREGOING

No. 1. On the 14th day of May, 1932, Joseph M. Samuels, Secretary of your Board of Appraisal Commissioners, was taken ill and moved to hospital at Harrisonburg, Virginia, and later to hospital at Charlottesville, Virginia, where he is at the date of the submission of this report.

On the 14th day of May, 1932, your Undersigned had completed, as above set out, all the duties assigned to them as Special Investigators and Appraisal Commissioners (including the preparation of the above mentioned work sheets) with the exception of the filing of this report, and with the exception also of the ascertainment and determination of the value of certain mineral rights mentioned hereafter in Exception 2 and of certain tracts of land within the area described in the petition, ownership of which is claimed by the Madison Timber Corporation and the Ward Rue Lumber Company, and of certain contractual rights claimed by the said Corporations in the timber on certain tracts owned by others within the

72

area, and of the amount of incidental damages to which the said Corporations would be entitled arising out of the proposed condemnation of the said lands and timber rights.

On the 14th day of May, 1932, hearings as to the value of said tracts and timber rights, and of the amount of the incidental damages claimed by the said Corporations had been suspended.

Subject to the further order of the Court, your Undersigned submit this report without undertaking to ascertain or determine or report the value of the said tracts of land and said timber rights claimed by said Corporations, or the amount of the incidental damages arising out of the condemnation of the lands described in the petition, for which said corporations may have a claim, and unless otherwise instructed by the Court, your Undersigned will file a supplemental report covering these matters, after the conclusion of the hearings pending thereon.

The tracts or parcels of land within the area described in the petition in which or with reference to which the said Corporations have filed or appear to have claims as above set out, are shown on the map and in the above mentioned exhibit sheets filed with this report under their respective numbers as follows: #191, #191-a, #191-b, #191-c, #191-d, #191-e, #191-f, #191-g, #191-h, #191-i, #191-j, #191-k, #191-l, #191-c-l, #188-l, #190, #195, #196, #199-a, #209, #213, #233, #239, #242, #267-a, #282, #285, #288, #291, #292, #296, #298, #301, #302, #307, #307-a, #308, #309, #311, #311-a, #316, #318, #343, #347, #166, #183-a, #188, #189-l, #189, #211, #212, #235, #238, #254, #264, #281, #289, #305-a, #305-b, #326, #330, #331, #333, #339, #191-c-II, #239-I, 198.

NO.2. On the date when Joseph M. Samuels was taken ill as above set out, hearings were also pending and had been suspended as to the value of certain mineral rights in the tracts shown on the above mentioned map filed with this report numbered as follows: 191-c, 359 and 360. One of these tracts numbered #191-c is claimed in fee simple by the Madison Timber Corporation and as above set forth your Undersigned have not ascertained nor determined its value.

The information and evidence furnished your Undersigned as to the said claims of mineral rights up to this time has been so vague and uncertain and indefinite that pending further hearings, your Undersigned proceeded to ascertain and determine the value of the fee simple estate in tracts numbered 359 and 360 without taking into consideration the value of any mineral rights or mineral bodies in or under the said tracts.

Subject to the further order of the Court, your Undersigned submit this report, setting forth in said exhibit sheets read together with the map filed herewith the fee simple value of the said tracts 359 and 360, without taking into consideration the value of any mineral rights or mineral bodies in or under said tracts and without undertaking to ascertain or determine the value of the mineral rights or mineral bodies in said tracts, and unless otherwise instructed by the Court, your Undersigned will file a supplemental report covering the fact or facts of value of the said mineral rights in the said tracts after the conclusion of the hearings pending thereon.

No.3. Since the date of the filing of the petition in these proceedings, the United States of America appears to have acquired title to the fee simple es-

-tate in a strip of land one hundred feet wide, running through a portion of the area described in the petition, upon which a road is now in course of construction by the Bureau of Public Roads of the U.S. Department of Agriculture, which said strip of land is not shown on said map, but runs through the tracts shown on the above mentioned map filed with this report numbered as follows: - No. 1, No. 2; b, No. 2 - c, No. 32, No. 63-h, No. 75, No. 131, No. 132, No. 133, No. 134, No. 135, No. 139, No. 140, No. 141, No. 143, No. 145, No. 148-a, No. 181, No. 193, No. 2, No. 131-IV.

Your Undersigned find the acreage and the value of the fee simple estate in the respective portions of said strip of land included in each of the above set out tracts of land, (disregarding the improvements and road construction thereon) to be the acreage and amounts set out after the number on the said map designating the respective tracts as follows: Portion of said strip of land: in Tract No. 1, Value 124.30, Acreage 14.46: In tract No. 2, Value \$9.00, Acreage 3: In Tract No. 2-b, Value \$24.00, Acreage 6: In tract No. 2-c, Value \$12.00, Acreage 8: In Tract No. 32, Value \$81.00, Acreage 9: In Tract No. 63-h, Value \$0.20, Acreage 1/10 - In Tract No. 75, Value \$21.00, Acreage 7: In Tract No. 131, Value \$220.00, Acreage 35: In Tract No. 132, Value \$110.00, Acreage 4: - In Tract No. 133, Value \$281.00, Acreage 25: In Tract No. 134, Value 227.20, Acreage 11.36: - In Tract No. 135, Value \$34.17, Acreage 11.39: - In Tract No. 139, Value \$172.00, Acreage 11: In Tract No. 140, Value \$89.73: - Acreage 9.97: - In Tract No. 141, Value \$148.20, Acreage 9.88: - In Tract No. 143, Value \$528.00, Acreage 13.22: - In Tract No. 145, Value \$939.60, Acreage 20:88: - in Tract No. 148-a, Value \$450.00, Acreage 18: - In Tract No. 181, Value \$110.00, Acreage 22: - In Tracts No. 193, Value \$39.00, Acreage 13: - In Tract No. 131-IV. Value \$20.00, Acreage 4.

In ascertaining and determining the value of each of the above mentioned tracts, through which said strip of land runs, which value is set forth in Table II of the above mentioned Exhibit Sheets, your Undersigned fixed this value upon each of said tract in its entirety, without taking into consideration the said road construction and improvements, and without deducting therefrom the value of the strip which appears to have been acquired by the United States of America during the course of these proceedings as above set forth. Your Undersigned, therefore, here find and report the value of the residue of each of the above enumerated and numbered tracts of land after excluding therefrom the portion of the said strip of land included therein, and to which the United States of America appears to have claim of ownership, to be the value of the tract in its entirety in Table II. of the Exhibit Sheets filed herewith, less the value of the fee simple estate in the portion of the said strip of land included therein as above set out.

Subject to the further order of the Court, and at the request of the Petitioner, your Undersigned have not sought to ascertain or determine the value of the entire fee simple estate in the above mentioned strip of land which appears to have been acquired by the United States, and on which large expenditures have been made and are being made in the construction of a road.

Nevertheless, the Petitioner having advised your Undersigned that it is its present purpose and intention, under authority of Section 22 of the Public Park Law, to acquire the Fee Simple Estate in the said strip of land, but subject to any easement of passage and right of way which has been or may hereafter be

claimed or set up in behalf of the United State of America, your Undersigned find and report the value of the Fee Simple Estate in the said strip of land, subject to such easement of passage and right of way, to be one dollar U.S. Currency.

Your Undersigned further report in this connection that under the terms of the various recorded deeds by virtue of which the above mentioned strip of land was conveyed to the grantor from whom the United States of America appears to have acquired title thereto, it appears that depending on the amount of the award, the Petitioner will have a claim to an interest in the proceeds of the condemnation of each of the above enumerated tracts or that the owners of the fee simple estate in such tracts will have a claim against the Petitioner, as and when such award is made; but your Undersigned do not undertake to ascertain or determine the amount of the value of such claims which appear to be dependant in each case upon the amount finally awarded by this Court in the event that the said tracts or any of them are condemned in these proceedings.

NO.4. The Chesapeake and Potomac Telephone Company of Virginia, a corporation organized and operating under the laws of the State of Virginia, operate a telephone line within the area sought to be condemned, extending from the President's Camp on the Rapidan River to Madison, Virginia. And although no claim therefor was filed with the record in the Clerk's Office, the said Company appears to have a claim to an easement including the right to conserve, maintain and conduct said telephone lines and telephone poles in and over the land sought to be condemned. Subject to the further order of the Court, and at the request of the Petitioner, your Undersigned have not undertaken to ascertain or determine the value of the said claim or of the property rights included therein, because the Petitioner has advised your Undersigned that it is not its present purpose to seek the condemnation of any of the property rights included therein to which the said Corporation may be entitled, and that under authority of the provisions of Section 22 of the Public Park Act it is the present purpose of the Petitioner to seek only the condemnation of the Fee Simple Estate of the lands described in the petition, subject to the easement and all rights to which the said Corporation or its successors in interest now are entitled, to conserve, maintain, and conduct its said telephone line and telephone poles on and over the lands sought to be condemned.

The part of the telephone line claimed by the Chesapeake and Potomac Telephone Company within the area described in the petition runs for a distance of approximately six miles on or over the lands described in the petition, and begins at a point where the Park boundary crosses Tract No. 185 about one-fourth of a mile north of the road extending from Criglersville, Virginia, to the President's Camp on the Rapidan River and crosses over or on tracts No. 185, 183-a, 188, 189, 190, 181, 148-a, 180, and 180-a, 191 as shown on said map. The telephone line by reason of which the said Corporation appears to have a claim is not shown on the aforementioned map filed with this report, nor is this claim shown on Table I of the above mentioned exhibit sheets.

No.5. The Madison Power Company, Incorporated, which appears to be a corporation organized and operating under the laws of the State of Virginia, filed a

claim with the record in the Clerk's Office in "a going and operating electric, transmission and distributing system", a part of the lines and equipment of which are located in or on the lands described in the petition, and damages to the "system that will be taken, occasioned and accrued" should "the lines and equipment in the Shenandoah National Park area be taken and condemned."

Subject to the further order of the Court and at the request of the petitioner, your Undersigned have not undertaken to ascertain and determine the value of the said claim or of the property rights included therein, or the amount of incidental damages arising out of the proposed condemnation:—because the petitioner has advised your Undersigned that it is not its present purpose to seek the condemnation of any of the property rights included therein to which the said Madison Power Company, Incorporated, may be entitled, and that under the authority of the provisions of Section 22 of the Public Park Act, it is the present purpose of the Petitioner to seek only the condemnation of the fee simple estate in the lands described in the petition, subject to the easement and all rights to which the said Corporation, or its successors in interest now are entitled, or at the time of condemnation may be entitled to conserve, maintain and conduct its said electric, transmission and distributing system including lines and poles on and over the lands sought to be condemned.

The part of the electric transmission system claimed by the said Madison Power Company, Incorporated, within the lands described in the petition, begins at the boundary line of Tract 184 and crosses over or on tracts 184, 185, 183-a, 188, 189, 190, 191, 148-a, 180, 181 and 180-a, as shown on the said map filed with this report, a distance of approximately six miles. The lines claimed by the said Madison Power Company are not shown on the aforementioned map filed with this report, nor is the claim shown on Table I of the above mentioned exhibit Sheets.

VIRGINIA IN THE CIRCUIT COURT OF MADISON COUNTY:

The State Commission on Conservation and Conservation  
and Development of the State of Virginia - - - - - Petitioner -

Vs.

W.D.Anderson and others and fifty five thousand  
(55,000) acres of land,more or less - - - - - Defendants.

Your Undersigned, who were by an order of your Honor's Court, entered in the above styled proceeding on February 13, 1931, appointed Special Investigators and members of a Board of Appraisal Commissioners, be leave to submit and file this report supplemental to the Original Report heretofore filed with the record in the Clerk's Office on the 3rd day of June, 1932.

Your Undersigned pray that this report be read with and taken to be a part of the said report filed June 3, 1932.

Attention is invited to Exceptions No.1 and No.2 of the Original Report, which read as follows:

EXCEPTION NO.1 OF THE ORIGINAL REPORT: "On the 14th day of May, 1932, Joseph M. Samuels, Secretary of your Board of Appraisal Commissioners, was taken ill and moved to hospital at Harrisonburg, Virginia, and later to hospital at Charlottesville, Virginia, where he is at the date of the submission of this report."

"On the 14th day of May, 1932, your Undersigned had completed, as above set out, all the duties assigned to them as Special Investigators and Appraisal Commissioners (including the preparation of the above mentioned work sheets) with the exception of the filing of this report, and with the exception also of the ascertainment and determination of the value of certain mineral rights mentioned hereafter in Exception 2, and of certain tracts of land within the area described in the petition, ownership of which is claimed by the Madison Timber Corporation and the Ward-Rue Lumber Company, and of certain contractual rights claimed by said Corporations in the timber on certain tracts owned by others within the area, and of the amount of incidental damages to which the said Corporation would be entitled arising out of the proposed condemnation of the said lands and timber rights."

"On the 14th day of May, 1932, hearings as to the value of said tracts and timber rights, and of the amount of the incidental damages claimed by the said Corporations had been suspended."

"Subject to the further order of the Court, your Undersigned submit this report without undertaking to ascertain or determine or report the value of the said tracts of land and said timber rights claimed by said Corporations, or the amount of the incidental damages arising out of the condemnation of the lands described in the petition, for which said corporations may have a claim, and unless otherwise instructed by the Court, your Undersigned will file a supplemental report covering these matters, after the conclusion of the

hearings pending thereon."

"The tracts or parcels of land within the area described in the petition in which or with reference to which the said Corporations have filed or appear to have claims as above set out, are shown on the map and in the above mentioned exhibit sheets filed with this report under their respective numbers as follows:

#191, #191-a, #191-b, #191-c, #191-d, #191-e, #191-f, #191-g, #191-h, #191-i, #191-j, #191-k, #191-l, #191-m, #191-n, #191-o, #191-p, #191-q, #191-r, #191-s, #191-t, #191-u, #191-v, #191-w, #191-x, #191-y, #191-z, #188-l, #190, #195, #196, #199-a, #209, #213, #233, #239, #242, #267-a, #282, #285, #288, #291, #292, #296, #298, #301, #302, #307, #307-a, #308, #309, #311, #311-a, #316, #318, #343, #347, #166, #183-a, #188, #189-l, #189, #211, #212, #235, #238, #254, #264, #281, #289, #305-a, #305-b, #326, #330, #331, #333, #339, #191-c-II, #239-I, 198."

EXCEPTION NO.2 OF THE ORIGINAL REPORT: "On the date when Joseph M. Samuels was taken ill as above set out, hearings were also pending and had been suspended as to the value of certain mineral rights in the tracts shown on the above mentioned map filed with this report numbered as follows: 191-c, 359 and 360." One of these tracts numbered #191-c is claimed in fee simple by the Madison Timber Corporation and as above set forth your Undersigned have not ascertained nor determined its value."

"The information and evidence furnished your Undersigned as to the said claims of mineral rights up to this time has been so vague and uncertain and indefinite that pending further hearings, your Undersigned proceeded to ascertain and determine the value of the fee simple estate in tracts numbered 359 and 360, without taking into consideration the value of any mineral rights or mineral bodies in or under the said tracts."

"Subject to the further order of the Court, your Undersigned submit this report, setting forth in said exhibit sheets read together with the map filed herewith, the fee simple value of the said tracts 359 and 360, without taking into consideration the value of any mineral rights or mineral bodies in or under said tracts, and without undertaking to ascertain or determine the value of the mineral rights or mineral bodies in said tracts, and unless otherwise instructed by the Court, your Undersigned will file a supplemental report covering the fact or facts of value of the said mineral rights in the said tracts after the conclusion of the hearings pending thereon."

Since the filing of the said Original Report, the hearings mentioned in said Exceptions No.1 and No.2 thereof, have been completed in substantially the same manner and form, and under like conditions as to notice, etc., etc., as are set out in the Original Report with reference to the hearings mentioned therein, and in response to the prayer of the Petitioner, and subject to the further order of the Court, your Undersigned proceeded in the manner and form set out in the Original Report, to ascertain and determine the facts of value as to the tracts numbered 191, 191-a and 191-c mentioned in said Exceptions No.1 and No.2 of the Original Report, and herewith file this Supplemental Report as to their findings of the facts of value with reference to the said numbered tracts which are shown on the attached exhibit sheets, read together with this report and the Original Report, and the map of the lands sought to be condemned and described in the Petition, and the exhibit sheets filed therewith.

Adopting, for convenience the form used in the former Original Report, Your Undersigned set out hereafter under the head of "Exceptions to the Foregoing Supplemental Report," certain matters constituting exceptions to the general statements and findings in the body of this Supplemental Report when read together with the Original Report and the said map and exhibit sheets filed with the Original Report.

The exhibit sheets filed together with this Supplemental Report are prayed to be taken and read as a part thereof, and of the Original Report, all of said exhibit sheets being paged consecutively from one to 6, page one thereof setting forth a summary table of the contents, and bearing the signature of the Secretary of your Board of Appraisal Commissioners in the lower left hand corner for the purpose of proper identification, in substantially the same manner and form as the exhibit sheets were attached to and filed with the Original Report.

In a separate envelope or wrapper your Undersigned also submit herewith, the written or printed evidence submitted by the Petitioner and the respective claimants in the course of the hearings, and taken into possession of the Undersigned, together with transcripts of the stenographic notes of so much of the oral testimony as was reduced to writing for the record, and separate maps of each of the tracts or parcels of diverse ownership as shown on the above mentioned map of the entire area sought to be condemned, the values of which are shown in this Supplemental Report, which separate maps were submitted by the Petitioner as a part of its evidence as to the nature, character, elements of value to be taken into consideration in ascertaining the value of said tracts or parcels of diverse ownership within the area described in the Petition, said envelope being suitably identified by the signature of the Secretary of the Board.

Your Undersigned submit herewith in a separate envelope or wrapper, suitably identified by the signature of the Secretary of your Board of Appraisal Commissioners, their "Work Sheets," setting forth in detail their findings as to the nature, character, location and extent of each of the tracts or parcels of land of diverse ownership shown on the above mentioned map, the facts of value of which and of the improvements thereon, and of claims of right, title, estate or interest therein filed with the record in the Clerk's Office, or found by the Undersigned where no such claims have been filed with the record in the Clerk's Office, are reported in this Supplemental Report. The data set forth in said "Work Sheets" includes the principal elements of value upon which your Undersigned have based their findings as to the fact or facts of value set out in this Supplemental Report, read together with the said map and the exhibit sheets filed herewith.

Your Undersigned have been and are engaged in the ascertainment and determination of the fact or facts of value as to all the tracts mentioned in the said Exceptions No. 1 and No. 2 of the Original Report, other than tracts No. 191, No. 191-a, and No. 191-c, the facts of value of which are reported herein. And subject to the further order of the Court your Undersigned will continue to consider, ascertain and determine the value of these tracts and file hereafter an additional supplemental report covering the same.

Your Undersigned acceded to the prayer of the Petitioner to ascertain and determine the facts of value as to tracts No.191, No.191-a, and No.191-c, reported herein, without awaiting the result of their ascertainment and determination of the fact or facts of value of the other tracts mentioned in said Exceptions No.1 and No.2 of the Original Report, Petitioner having advised your Undersigned that it deems it important to have the fact or facts of value as to Tracts No.191, No.191-a, and No.191-c determined at this time in order that it may be in position to consider intelligently the advisability of filing a motion for the dismissal of all the other tracts mentioned in said Exceptions No.1 and No.2 of the Original Report.

EXCEPTIONS TO THE FOREGOING

NO.1 - MINERAL RIGHTS:

As to the value of the mineral rights and mineral bodies in and under the aforesaid tract No.191-c, your Undersigned, since the filing of the Original Report, have completed their hearings, and find the value of the mineral rights and mineral bodies in or under the said tract No.191-c, to be nothing. Your Undersigned, after hearing the evidence and arguments presented by the Petitioner and the claimants, and after a thorough inspection and view of the said Tract No.191-c, are of the opinion that the mineral rights and mineral bodies which may be under the said tract have no actual market value. Your Undersigned are not prepared to find or report that there are no mineral bodies of any kind in or under this tract, or that under no circumstances and at no time in the future will mineral bodies of value be discovered or developed in or under these tracts; but your Undersigned do find and report that they have been unable to find any evidence which would justify them in ascertaining or determining or reporting a finding that there are mineral bodies of value in or under the said tract, and your Undersigned, therefore, ascertain and determine the value of the mineral rights and claims, and of the mineral bodies in or under the said tract No.191-c, to be nothing.

In this connection, your Undersigned, at the prayer of the Petitioner, further report that as to all the tracts included in the lands described in the Petition, the value of which has been ascertained and determined by them, either in the Original Report or this Supplemental Report, that they find the value of the mineral rights and of any bodies of minerals in or under the said tracts, to be nothing.

No.2: Your Undersigned further report that at the request of the Petitioner, they have ascertained and determined, and do ascertain and determine, the value of the fee simple title to that portion of tract No.191 hereinafter described, to be Three Hundred and Ninety-six Dollars, and they attach a plat hereto showing the location and extent of the said portion or sub-division of tract No.191 valued as aforesaid.

The Petitioner has advised your Undersigned that some doubt has arisen as to the title and ownership of this portion of tract No.191, and that as a result of the uncertainty as to the ownership thereof, a road has been constructed by the Federal authorities running through a part thereof, for use in connec-

tion with the proposed National Park, and that in order to quiet title and all claims thereto, the Petitioner desires to condemn and acquire title to this portion of tract No. 191, whether or not it hereafter finds it necessary to move this Court to exclude the remainder of tract No. 191 from the lands sought to be condemned in these proceedings.

The tract in question lies at the north end of tract NO. 191 as shown on the map of the lands sought to be condemned, filed with the Original Report. The exact delineation and boundaries of the portion of tract No. 191 as shown on the said map, the value of which is set out above, being set forth in the sub-joined plat, and contains sixty-seven acres.

*From plat No 191 as in  
sup. Report No. 1*

This portion of tract No.191 is not shown as a sub.division on the map of the lands sought to be condemned filed with the Original Report,and for that reason bears no number,and its value is set out in this Exception because,bearing no number it would be impracticable to show its value in the exhibit sheets filed therewith.

The portion of said tract No.191 valued herein being that portion of said tract lying north of the line A-B on the plat.

Respectfully submitted this 19th day of October,1932.

"The information and evidence furnished your Undersigned as to the said claims of mineral rights up to this time has been so vague and uncertain and indefinite that pending further hearings, your Undersigned proceeded to ascertain and determine the value of the fee simple estate in tracts numbered 359 and 360, without taking into consideration the value of any mineral rights or mineral bodies in or under the said tracts."

"Subject to the further order of the Court, your Undersigned submit this report, setting forth in said exhibit sheets read together with the map filed herewith, the fee simple value of the said tracts 359 and 360, without taking into consideration the value of any mineral rights or mineral bodies in or under said tracts, and without undertaking to ascertain or determine the value of the mineral rights or mineral bodies in said tracts, and unless otherwise instructed by the Court, your Undersigned will file a supplemental report covering the fact or facts of value of the said mineral rights in the said tracts after the conclusion of the hearings pending thereon."

Since the filing of the said Original Report and the First Supplemental Report, the hearings mentioned in said Exceptions No.1 and No.2 have been completed in substantially the same manner and form and under like conditions as to notice, etc., etc., as are set out in the Original Report with reference to the hearings mentioned therein, and in response to the prayer of the Petitioner, and subject to the further order of the Court, your Undersigned proceeded in the manner and form set out in the Original Report and the First Supplemental Report, to ascertain and determine the facts of value as to the tracts numbered 191-b, 191-d, 191-e, 191-f, 191-g, 191-h, 191-i, 191-j, 191-k, 191-l, 191-c-l, 188-l, 190, 195, 196, 199-a, 209, 213, 233, 239, 242, 267-a, 282, 285, 288, 291, 292, 296, 298, 301, 302, 307, 307-a, 308, 309, 311, 311-a, 316, 318, 343, 347, 166, 183-a, 188, 189-l, 189, 211, 212, 235, 238, 254, 264, 281, 289, 305-a, 305-b, 326, 330, 331, 333, 339, 191-c-II, 239-l, 198 mentioned in Exceptions

No.1 of the Original Report, and herewith file this Second Supplemental Report as to their findings of the facts of value with reference to the said numbered tracts which are shown on the attached exhibit sheets read together with this report and the Original Report and the map of the lands sought to be condemned and described in the petition, and the exhibit sheets filed therewith.

Adopting, for convenience, the form used in the former Original Report the First Supplemental Report, your Undersigned set out hereafter under the head of "Exception to the Foregoing Second Supplemental Report," certain matters constituting exceptions to the general statements and findings in the body of this Second Supplemental Report when read together with the Original Report, and the First Supplemental Report, and the said map and exhibit sheets filed with the Original Report, the First Supplemental Report, and this Second Supplemental Report.

The Exhibit Sheets filed together with this Second Supplemental Report are prayed to be taken and read as a part thereof, and of the Original and the First Supplemental Reports, all of said exhibit sheets being pagged consecutively from one to 18, page one thereof setting forth a summary table of the contents, and bearing the signature of the Secretary of your Board of Appraisal Commissioners in the lower left hand corner for the purpose of proper identification, in substantially the same manner and form as the exhibit sheets were attached to and filed with the Original Report and the First Supplemental Report.

In a separate envelope or wrapper your Undersigned also submit herewith, the written or printed evidence submitted by the Petitioner and the respective claimants in the course of the hearings, and taken into possession of the Undersigned, together with transcripts of the stenographic notes of so much of the oral testimony as was reduced to writing for the record, and separate maps of each of the tracts or parcels of diverse ownership as shown on the above mentioned map of the entire area sought to be condemned, the values of which are shown in this Second Supplemental Report, which separate maps were submitted by the Petitioner as a part of its evidence as to the nature, character, and elements of value to be taken into consideration in ascertaining the value of said tracts or parcels of diverse ownership within the area described in the petition, said envelope being suitably identified by the signature of the Secretary of the Board .

Your Undersigned further submit herewith in a separate envelope or wrapper, suitably identified by the signature of the Secretary of your Board of Appraisal Commissioners, their "Work Sheets," setting forth in detail their findings as to the nature, character, location and extent of each of the tracts or parcels of land of diverse ownership shown on the above mentioned map, the facts of value of which and of the improvements thereon, and of claims of right, title, estate or interest therein filed with the record in the Clerk's Office, or found by the Undersigned where no such claims have been filed with the record in the Clerk's Office, are reported in this Supplemental Report. The data set forth in said "Work Sheets" includes the principal elements of value upon which your Undersigned have based their findings as to the fact or facts of

value set out in this Supplemental Report read together with the said map and the exhibit sheets filed herewith.

EXCEPTION TO THE FOREGOING

NO.1 - MINERAL RIGHTS: As to the value of the mineral rights and mineral bodies in and under the tracts mentioned in the above quoted Exception No.2 of the Original Report, your Undersigned since the filing of the Original Report, have completed their hearings and find the value of the mineral rights and mineral bodies in or under the said Tracts No.359 and No.360 to be nothing, as was found in the case of Tract No.191-c, and reported in the First Supplemental Report.

Your Undersigned after hearing the evidence and arguments presented by the Petitioner and the claimants, and after a thorough inspection and view of the said Tract No.359 and No.360, are of the opinion that the mineral rights and mineral bodies which may be under the said tracts have no actual market value. Your undersigned are not prepared to find or report that there are no mineral bodies of any kind in or under these tracts, or that under no circumstances and at no time in the future will mineral bodies of value be discovered or developed in or under these tracts; but your Undersigned do find and report that they have been unable to find any evidence which would justify them in ascertaining or determining or reporting a finding that there are mineral bodies of value in or under the said tracts, and your Undersigned, therefore, ascertain and determine the value of the mineral rights and claims, and of the moneral bodies in or under the said tracts No.359 and No.360, to be nothing.

In this connection, your Undersigned at the prayer of the Petitioner, further report as to all the tracts included in the lands described in the petition, the value of which has been ascertained and determined by them in this Second Supplemental Report, that they find the actual cash value of the mineral rights and of any bodies of mineral in or under the said tract, to be nothing.

Respectfully submitted this 3 day of November, 1932.

Aylor as shown in Table i, is entitled to incidental damages amounting to \$750.00 if, as it appears, said owner is also the owner of one hundred and fifty acres, more or less, contiguous to tract No.242, and outside the area described in the petition, which, but for the condemnation of tract No.242 would constitute together therewith, a larger tract or parcel of land under the same ownership.

No claims of incidental damages have been set up or filed in the Clerk's Office, or found by the appraisal Commissioners with reference to or by relation to the proposed condemnation of tract No.191-b, 191-d, 191-e, 191-f, 191-g, 191-h, 191-i, 191-j, 191-k, 191-l, 191-c-I, 190, 195, 196, 199-A, 209, 213, 233, 239, 242, 267-a, 282, 285, 288, 291, 292, 296, 298, 301, 302, 307, 307-a, 308, 309, 311, 311-a, 316, 318, 343, 347, 166, 183-a, 188, 189, 189-I, 211, 212, 235, 238, 254, 264, 281, 289, 305-a, 305-b, 326, 330, 331, 339, 191-c-II, 139-I, and 198, the facts of value of which are ascertained, determined and reported in this Second Supplemental Report, other than the claims set out above, and the claims for incidental damages set up by the said Madison Timber Corporation and the Ward-Rue Lumber Company, by reason of the proposed condemnation of all the lands claimed by them, or in which they claim some right, title, estate or interest within the boundaries of the lands described in the petition filed in this proceeding, and also of all the lands described and included in the petition filed in the condemnation proceeding in the Circuit Court of Greene County under the title of the "State Commission on Conservation and Development of the State of Virginia, Petitioner, vs. C.M.Armentrout and others and thirty-four thousand, One hundred and twenty-seven acres (34,127) of land more or less, Defendants, At Law No.57." in which proceeding your Undersigned were appointed as Special Investigators and Appraisal Commissioners.

At the request of the said Madison Timber Corporation and the Ward-Rue Lumber Company, your Undersigned permitted counsel to submit evidence and argument in support of the claim of these Corporations for incidental damages arising out of the proposed condemnation of all the above mentioned tracts sought to be condemned in this proceeding, together with the tracts mentioned in the above set out condemnation proceeding in the County of Greene, without undertaking to

establish the amount of incidental damages to which the said Corporations would be entitled by reason of the taking of their lands in either county in the event that none of the lands in the other county should be condemned and taken.

" It is, accordingly, adjudged and ordered, upon the motion and prayer of the Petitioner, by counsel, that the fee simple estate in each of the several tracts described in the report of the Special Investigators and Board of Appraisal Commissioners filed with the record of this proceeding and numbered, shown and delineated on the County Ownership Map filed with and made a part of said report, the County Ownership Map number of which is set forth in the following table, is hereby condemned to the use of the Petitioner upon the Petitioner paying into the custody of this Court, for the use and benefit of the person or persons entitled thereto, the sum ascertained and determined as the value of the fee simple estate in said tract together with the amount of the incidental damages resulting from the condemnation thereof ascertained and determined by said Board of Appraisal Commissioners, which sum and amount of incidental damages are as shown and separately set out in the following table, which table constitutes and integral part of this judgment, and are here expressly stated as constituting the award for each of the said tracts herein contained, and upon the payment into the custody of this Court by Petitioner of the amount thus stated as constituting the award for any such tract the fee simple estate therein shall vest in the Petitioner as provided in Section 13 and 38 of said Public Park Condemnation Act.

"But nothing herein contained shall be construed as requiring or obligating Petitioner to pay the said awards or any of them into the custody of the Court or to acquire all or any of said tracts, and Petitioner may at its election acquire any one or more of said tracts by payment into the custody of the Court of the amount stated herein as the award therefor.

"The following table sets forth in columns under appropriate explanatory headings:- First, under the heading 'Tract No.', the number of the several tracts designated by number and shown and delineated on the above mentioned County Ownership Map and described in the said report of the Special Investigators and the Board of Appraisal Commissioners filed with the record of this proceeding, each of which is condemned herein to the use of the Petitioner: Second, under the heading 'Value', the value of the fee simple estate in each of the said tracts as ascertained and determined by the said Board of Appraisal Commissioner; Third, under the heading 'Incidental Damages', the amount of the incidental damages ascertained and determined by said Board of Appraisal Commissioners which will result from condemnation hereunder of the numbered tract in the correspond

-ing column of the table; Fourth, under the heading 'Aggregate', the aggregate of the value and of the amount of incidental damages ascertained and determined by the said Board of Appraisal Commissioners with reference to the numbered tract in the corresponding column of the table, which aggregate amount as shown in the table is stated and set out herein as constituting the award for the said tract upon its condemnation to the use of the Petitioner.

(A) The foregoing notwithstanding, it is further adjudged and ordered that the fee simple estate which may or shall be acquired by the Petitioner, hereunder, in any or all of the said tracts or land is and shall be subject nevertheless to such easement of passage and right of way therein or thereover as have heretofore been acquired or are now claimed by the United States of America, which easements and right of way are described in said report of the Board of Appraisal Commissioners, in Exception 3 of the body of said report, as an easement of passage and right of way on or over a strip of land one hundred feet wide running through the tracts mentioned in said Exception 3 of said report, the value of which easement of passage and right of way was not ascertained or determined by the said Board of Appraisal Commissioners: and it further appearing from the said report that the said United State of America owns or claims the fee simple estate in the said strip of land owned or claimed by the United States subject to said easement of passage and right of way thereon or thereover, has been ascertained and determined by the said Board to be one dollar, U.S. Currency, the fee simple estate in said strip of land is hereby condemned to the use of the Petitioner subject to said easement of passage and right of way, upon the payment of the said amount of one dollar into the custody of the Court for the use and benefit of the person or persons entitled thereto, which said amount is hereby stated and set out as constituting the award for the fee simple estate in said strip of land subject to the said easement of passage and right of way.

(B) The foregoing notwithstanding it is further adjudged and ordered that the fee simple estate which may or shall be acquired hereunder by the Petitioner, in any or all of said tracts of land, is subject nevertheless to such rights of way and easements in, on or over such tracts or any of them for the erection, maintenance, repair, replacement and operation of poles and wires or other appliances or means for the transmission of electricity as have heretofore been lawfully acquired therein by the Chesapeake and Potomac Telephone Company of Virginia, to which reference is made in Exceptions 4 in the body of said Report of the Board of Appraisal Commissioners; and by the Madison Power Company Incorporated to which reference is made in Exception 5 in the body of said report -

V. AT LAW NO. 82

D.F. Anderson and Others, and Fifty-Five Thousand  
(55,000) Acres, more or less, of Land in Madison  
County, Virginia - - - - - Defendants.

On the 12th day of January, 1934, came the petitioner by counsel and exhibited the record of the above styled proceeding including the several exceptions to the report of the Board of Appraisal Commissioners filed herein and the order of this Court, entered the 30th day of December, 1933, setting this proceeding for hearing on the motion of the petitioner to overrule and dismiss the exceptions filed by the claimants, O.B. and G.W. Smith on the said exceptions, the answers thereto and the supporting affidavits filed with the record, and thereupon the matters of law and fact arising out of the said exceptions were argued by counsel for the petitioner and counsel for the said O.B. & G.W. Smith and considered and disposed of as follows, to-wit:

In the matter of the said exceptions filed by the said O.B. & G.W. Smith, a stipulation was entered into in open Court by and between the petitioner and the said O.B. and G.W. Smith, under which the said parties agreed that all questions as to the fair market value of Tract No. 106 described and numbered in the report of the Board of Appraisal Commissioners filed herein, should be submitted for determination extra-judicially by the Judge of this Court, the Hon. Lemuel F. Smith, by arbitration, and heard upon like terms and conditions to those under which the arbitration proceedings known as the Governor's National Park Condemnation

Arbitration Proceedings have been conducted, and that the amount set forth as the value of said Tract No. 106 in Table II of the report of the Board of Appraisal Commissioners should be amended, if necessary, to conform with the findings as to the value of the said tract thus ascertained and determined, and that thereupon and thereafter, the said O.B. and G.W. Smith.

Whereupon, the Court took under advisement the said motion of the petitioner to overrule and dismiss the said exceptions, objections and motions, and announced its purpose to enter judgment thereon as and when the fair market value of the fee simple estate in the said tract should have been ascertained and determined, under and in pursuance of the terms of the said stipulation, and it now appearing to the satisfaction of the Court that the fair market value of the fee simple estate in the said Tract No. 106 has been ascertained and determined in pursuance of the said stipulation to be \$1400.00, it is adjudged and ordered that the amount set forth in Table II of the report of the Board of Appraisal Commissioners herein as the value of said Tract No. 106 should be and is modified by substituting therefor the sum of \$1400.00 and the motion to disapprove the findings in the report of the Board of Appraisal Commissioner herein, and the several exceptions and objections thereto, filed or submitted by the said claimants O.B. and G.W. Smith should be and are overruled and dismissed generally, and specifically in so far as they relate to the said Tract No. 106 described and numbered in the report of the Board of Appraisal Commissioners herein; and the Clerk of this Court is directed to make the said amendment appear on the face of the said Table II of said report, by running a line with pen and ink through the amount therein set forth, as the value of the said Tract No. 106, to-wit: \$ 712.00 and inserting by the side thereof the sum of \$1400.00, with a note of reference to the date of entry of this order in the margin of the said Tabel II of the report of the Board of Appraisal Commissioners filed with the record of this proceeding.
