~~Ques - What do you think~~ From the appearance of the child
It seems to be sufficiently developed to induce the opinion, that
it was born at the proper period, but whether it was still born
or not, It is difficult at present to ascertain, having understood
and from its appearances I believe that it has been dead two
long to arrive any benefit from post mortem examination
As it is rapidly undergoing a state of putrefaction, I am

I am not able to detect any marks of violence suf-
ficient to have caused death -
