Blood.

Pimples, boils, carbuncles, sluggishness and general run down condition are to be attributed to an impure or impoverished condition of the blood. The liver, which is the largest organ in the human body, is the great regulator of the system. Through its intricate net work of tubes every particle of blood is forced for purification. From the blood the liver secretes the bile, which it in turn throws off. We therefore see how necessary it is to keep the liver healthy and active in order to purify the blood. We cannot reach the liver from the outside and must therefore regulate it from within. For this purpose there is nothing equal to Simmons Liver Regulator which corrects the torpid liver, restores its vigor and thus regulates the entire system. Simmons Liver Regulator is not unpleasant to take, is purely vegetable and perfectly harmless.
